PROJECT TITLE	AI-Based localization and classification of skin disease with erythema

STEP 1:

STEP 2:

The screenshot displays the IBM Cloud dashboard in a web browser. The browser's address bar shows the URL `cloud.ibm.com`. The dashboard header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user's account (kb pavithra's Account). The main content area is titled "Dashboard" and features a "For you" section with six recommended actions: "Build" (Explore IBM Cloud with this selection of easy starter tutorials and services), "Choose a Database" (Find the right IBM Cloud database for the job), "Db2" (Get enterprise-level OLTP performance, 99.99% uptime SLA, automatic backups, compliance options and encryption at rest with Db2), "Explore IBM Cloud Shell" (Try a command-driven approach for creating, developing, and deploying a web project), "Set up your IBM Cloud account" (Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources), and "Visit the IBM Cloud catalog" (Explore our unique product catalog that contains 190+ services and software for your business solutions). Below the "For you" section, there are four more sections: "News" (IBM Cloud Satellite New Pricing, IBM Cloud Data Shield Deprecation, IBM Watson Orchestrate Is Integrating with ThisWay Global, SLSA Support in IBM Cloud Continuous Delivery), "Recent support cases", "Planned maintenance", and "IBM Cloud status". The bottom of the dashboard shows a Windows taskbar with the date and time (17-11-2022, 13:44) and the system status (25°C, Partly Cloudy).
